

# Looking for ‘Leonie Schuster’ as Interviewpartner!

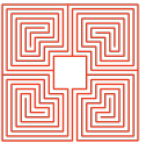

## Who knows someone like ‘Leonie Schuster’? And would you connect me with her?

**Who is ‘Leonie Schuster’?** She is a team leader in a typical sandwich position and is forced to deal with topics like “hybride working” and “retention of talent”. She is leading a team of six to twelve office workers. Leonie and her Team are considered digitally skilled but not as tech-nerds. During the pandemic, the team was able to work successfully and productively in a home office setup, but some shortcomings are now emerging. By the way: I obviously mean ‘Leon Schuster’ equally.

**Why am I looking for her?** In the context of a research project for a book about hybrid working and additional market analysis, I would like to interview experts — so I’m looking for those who have to handle the current challenges in today’s business world. I only need about 20 minutes of their time for a zoom conference to hear about their pain points. There is no preparation needed and it’s not a commercial call — so no obligations.

**What will be the topic?** I would like to find out what ‘Leonie’s’ and accordingly ‘Leon’s’ insights are on how the business world has changed over the last 15 months. How are the ways of working and behaviour impacted by the experiences made over the last few years? How are collaboration and team identity affected by some team members still working remotely? Which additional tools and skills are needed now? What’s the impact on the work environment?

I would appreciate it if you could distribute this little flyer in your network and give me lots of opportunities to conduct interviews with insiders.

Thanks a lot in advance.
